DETAILED ACTION

Allowable Subject Matter

Claims 16-25 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art fails to teach a nasal-nasopharyngeal irrigating and cleansing system that includes, among all the limitations a cup including a bottom wall, front wall, first sidewall and second sidewall where the sidewalls have no openings where the varying widths of the sidewalls create a horizontal sidewall for maintaining a cavity to contain the liquid held in the cup; and a sealing rim on the front wall to maintain a sealing surface between the sealing rim and a user's face in combination with a first and second protuberance on the interior side of the first and second sidewalls adapted to allow a user to select one of the protuberances to press against and close off a user's nostril allowing liquid held in the cup to flow through only the unclosed nostril into the nasal cavities.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

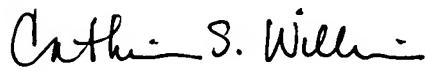

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Catherine S. Williams whose telephone number is 571/2724970. The examiner can normally be reached on Monday - Friday.
